The committee is hoping to attract 500 general dentists from Canada and will market more to the Pacific Rim and South America rather than Europe because the ESE meets in Turkey a few weeks later.

The committee is not able to guarantee a return of the seed money used for marketing and will most likely request additional funds.

The committee also suggests the use of the same PCO for the next World Congress so a new company does not have to start from the beginning. (Weinstein).

World Congress 2010

The Hellenic Endodontic Society has selected an organizing committee. (Farmakis)
