

## **The Report of the President-Elect to IFEA**

**May, 2014**

As Dr. Patrick Bogaerts reported a couple of years ago: “There is not much for the President-Elect to do.” I have read the many emails and added my suggestions where I felt it was appropriate. I have also taken special note of all the energetic and wonderful contributions that our other officers have made.

I have also offered the services of the University of Texas at Houston Continuing Education Department for providing CERP credits for the courses at the World Congress. Dr. Hideaki Suda was in contact with our department and therefore was able to offer these credits to those participants that can use them. It has been a long, detailed and complicated process but it was possible for the 2013 meeting and will continue for the 2016 meeting. Dr. Suda and his team are to be commended for their excellent attention to detail and an extremely successful meeting.

I have closely monitored the duties and operations of all the officers and report that they have all done their jobs in an exemplary manner and I am very happy that Dr. Maggio has successfully recovered from his operations. The IFEA Executive Committee is dedicated to excellence and will take this organization to greater heights.

Respectfully submitted,

Prof. Samuel Dorn  
President-Elect, IFEA
