

Boston April 2012
Report of the President-Elect

Mister President, Dear Colleagues,

You might remember that at our last General Assembly in Rome, I expressed my frustration as to my forced inactivity as President-Elect.

So I was asked to gather information on the requirements to receive Continuing Professional Development (CPD) or Continuing Education Recognition Program (CERP) credits for respectively Australian and New Zealand and American participants to the 9th World Endodontic Congress in Tokyo.

In brief, it is possible but it involves a lot of work and I concentrated first on these 3 countries before starting to enquire in Great-Britain or other countries (Korea and, of course, Japan where I would rely on professors Kim and Suda).

I also started to work on ideas for my 2-years Presidency but that's for later.

Thank you for your attention.

Patrick Bogaerts
